FOUND DEAD IN LAKE.

ROCHESTER, N. Y., May 2.—The body of a man was found in Seneca Lake, at Geneva, yesterday afternoon. wanted by Cayuga County authorities.
Bartels was convicted here last year for attempted arson and being under heavy ball was given three days to straighten out his business affairs before being sentenced.

Instead of appearing in count on the day appointed for sentencing Bartels field to Canada.

Under the treaty Bartels are the forehead, which had been sewed by the forehead.

Under the treaty Bartels are the forehead at the forehead.

Under the treaty Bartels caused his death.

Ender the treaty Bartels could not be extradited for the crime for which he was convicted. Recently the Grand Jusy of Cayuga County indicted Bartels for perjury, committed while testifying in his own behalf during the trial at which he was convicted of attempted arson.

Perjury is an extraditable crime, and it was on these grounds that Bartels was arrested by the Canadian authorities.

The blood is filled with impurities and germs which are being constantly fed into the place through the circulation, until all the surrounding fiesh becomes diseased and the sore an obstinate and permanent trouble. Every symptom of an old ulcer suggests pollution; the discharge, the red, angry looking flesh, the inflammation and discoloration of surrounding parts, all show that the ulcer is prevented from healing by the constant drainage through it of impurities from the blood. This impure condition of the blood may be hereditary, or it may be the remains of some constitutional disease, or the effects of a long spell of sickness, leaving disease germs in the system, or the absorption of the refuse of the body which has not been properly expelled through the natural channels. But whatever the cause, the blood is so weakened and polluted that it does not properly nourish and stimulate the place, and the sore cannot heal. Salves, plasters, lotions, etc., keep the sore or ulcer clean, relieve pain, and perhaps reduce inflammation, but can never permanently heal them because they do not reach the blood. S. S. S. goes down to the very foun-tain-head of the trouble, drives out all poisons and germs, builds up the weak, sluggish blood, gives energy and strength to the system, and by sending a fresh, healthy stream of blood to the diseased parts, allows the ulcer to heal naturally and permanently. Nothing reaches inherited taints like S. S. S. It cleanses the circulation of every trace of hereditary disease or impurity, and those who have nursed and treated an old sore for years will experience good results as soon as the system becomes influenced by S.
